Racial Justice Monthly Practice

A monthly 90-minute gathering (10 months of the year) will be offered to discuss a topic related to white privilege and/or racial justice. This is an opportunity for individuals who identify as white to find a brave space to do their own work. The sessions are open to clergy and lay leaders. Authorized Minsiters who attend will receive a certificate after each session to verify 90 minutes of Racial Justice Training. The hope is that those who choose to participate will find the program helpful and will attend more sessions, even after they have completed the hours needed for their Conference requirements. To that end, there is an option to register for all sessions at a reduced rate, even if you are not able to attend all sessions.
